## REACH UK / DUIN number

Dear Customer,

As of 1 January 2021 the UK REACH and the EU REACH regulations now operate independently from each other. Companies that supply and purchase substances, mixtures or articles to and from the EU/EEA/Northern Ireland and Great Britain (England, Scotland and Wales) will need to ensure **that the relevant duties are met under both pieces of legislation.**

Under the Northern Ireland Protocol the EU REACH Regulation continues to apply to Northern Ireland, while UK REACH will regulate the access of substances to the GB market.

GB-based companies that were downstream users or distributors under EU REACH, became importers at the point when UK REACH entered into force.

Downstream users and distributors under EU REACH wishing to continue importing these substances into GB from the EU **must notify The Health & Safety Executive (HSE) of their intention to do so.**

This notification - Downstream User Import Notification (DUIN) - must be made before Oct 27th 2021

Although PVC Polymers are not covered by the REACH regulations, the monomers and copolymers used in its production are.

We would like to inform you that In-line with these new duties under UK REACH regulations Vinnolit GmbH & Co. KG as a Manufacturer based outside of GB has made this notification to HSE on behalf of our GB based customers (Importers) via a GB-based Only Representative (OR).
